Strip Poker **Data Disk**

Our STRIP POKER Data Disks provide the user with a variety of new female and male opponents to play against. *You must have the appropriate **STRIP POKER THREE**, **STRIP POKER II** or **STRIP POKER** master disk in order to use the Data Disk.*

Each Data Disk contains two new opponents, each with their own "personality" and style of play.

For STRIP POKER THREE - IBM, Amiga

- Data Disk #1 (female): Morgan and Kathy
- Data Disk #2 (male & female): Jack and Samantha
- Data Disk #3 (female): Gina and Holly
- Data Disk #4 (female): Stacey and Desireé
- Data Disk #5 (female): Kelly and Maureen

For STRIP POKER II - IBM, Amiga, Apple IIGS and Atari-ST :

- Data Disk #1 (female): Morgan and Kathy
- Data Disk #2 (male & female): Jack and Samantha
- Data Disk #3 (female): Gina and Holly

For STRIP POKER - Commodore-64, Apple II, Atari (8-bit):

- Data Disk #1 (female): Candy and Marlana
- Data Disk #2 (male): Tony and David
- Data Disk #3 (female): Dominique and Lindsay

Loading Instructions For Your Strip Poker Three Data Disk

Amiga version by Chris Barrett and Craig Smith

USING THE OPPONENTS DISK: To use this disk, first insert the disk into any floppy drive. If the program is already running and you are on the opponents selection screen, press the "Find Players" button to have the Strip Poker Three program search the drives for additional opponents disks. Then simply select the players that you want to play.

You can also insert the opponents disk in place of the Strip Poker Three Opponents disk that came with the program and then start the program. The opponents will be displayed automatically.

There is a hard drive install program on the disk; just double click on the install icon, and it will transfer the files to your "Strip3:" directory. Make sure that you have made this assignment as stated in your Strip Poker Three program documentation or installation. If you have installed the opponents on you hard drive, all the opponents that have been installed will be displayed, along with those that are on any opponents disks in the floppy drive.

Sorry, the opponents on this disk are not compatible with our previous Strip Poker and Strip Poker II programs.

MAKE BACKUPS: You are allowed to make a backup of the original disk for backup purposes only. Be sure to keep the original in a safe place. You can use any of your favorite backup programs including diskcopy.

COPYRIGHTS AND TRADEMARKS: Strip Poker, Strip Poker II and Strip Poker Three are trademarks of Artworx Software Company, Inc.
